> NOT A BABY CARRIER. Do not wear over another garment

IMPORTANT ! ... TO KEEP FOR FUTURE CONSULTATIONS

If you wish to use the "skin-to-skin holding / babywearing fonction" of your SKIN-to-SKIN CAMI & BANDEAU, please READ ALL WARNINGS carefully before using.

WARNINGS

WARNING - Failure to follow the manufacturer's instructions could result in death or serious injury

WARNING - SUFFOCATION HAZARD Babies can suffocate in this product if the face is crushed against your body. Babies most at risk of suffocation include those born prematurely and those with respiratory problems.

Check often to make sure baby's face is uncovered, mouth and nose are always visible and never obstructed.

WARNING - For premature infants, low birth weight babies (less than 7lbs-3,5kg) and babies with medical problems, always seek medical advice before using this product.

WARNING - Make sure baby does not curl into a position with the chin resting on or near baby's chest. This position can interfere with breathing, even when nothing is covering the nose or mouth.

WARNING - To avoid any risk of a fall, make sure that baby is always securely held inside inner "X", 3 layers of fabric must be spread over baby's body and always cover the upper part of his/her back + shoulders.

WARNING - If you use of the babywearing feature of this Cami & Bandeau when wearer is in a vertical & mobile position, use it with one healthy baby only. weighing from 5lbs (2,5 kg) up to about 15 lbs (7 kg).

WARNING - Do not babywear when cooking, drinking hot drinks, doing any sports, handling heavy objects, etc.

-Stay away from any heat sources or exposure to chemicals.

-Never babywear in your Cami while driving or being a passenger in a motor vehicle

WARNING - Never force baby's arms & legs into an unusual position. Always hold baby's head when handling if your baby is not old enough to hold his / her head.

INSTRUCTIONS:

-Try the garment before buying. It must follow the body, without being loose or being too tight. IMPORTANT: but lower support band must be tight on wearer's belly, since it retains the baby from slipping down. If the garment fits well but the inner support band is not tight enough, you can use a smaller size Bandeau (sold separately) over the Cami

-New garment must be washed before wearing with baby. Wash with mild soap, cold or lukewarm water. Turn garment inside out to dry in dryer (delicate cycle) until it is still a little damp. Then hang to dry the balance (your Cami will maintain good appearance - good for all your cotton garments!).

-Always check that your Cami & Bandeau is in good condition before using its "skin to skin babywearing feature". Seams must be well closed. Avoid leaving the garment under UV rays (sun) to prevent premature aging of cotton (good for all your cotton garments!).

NOTE: The Skin to Skin Cami & Bandeau was designed for a single user / wearer. It is not recommended to buy it second hand.

-Put on your Cami like any other Cami or T-shirt. Put on the Bandeau over the Cami. You can place over bustline or under bustline. Nothing to tie. Replace neckline facing if they're pulled out.

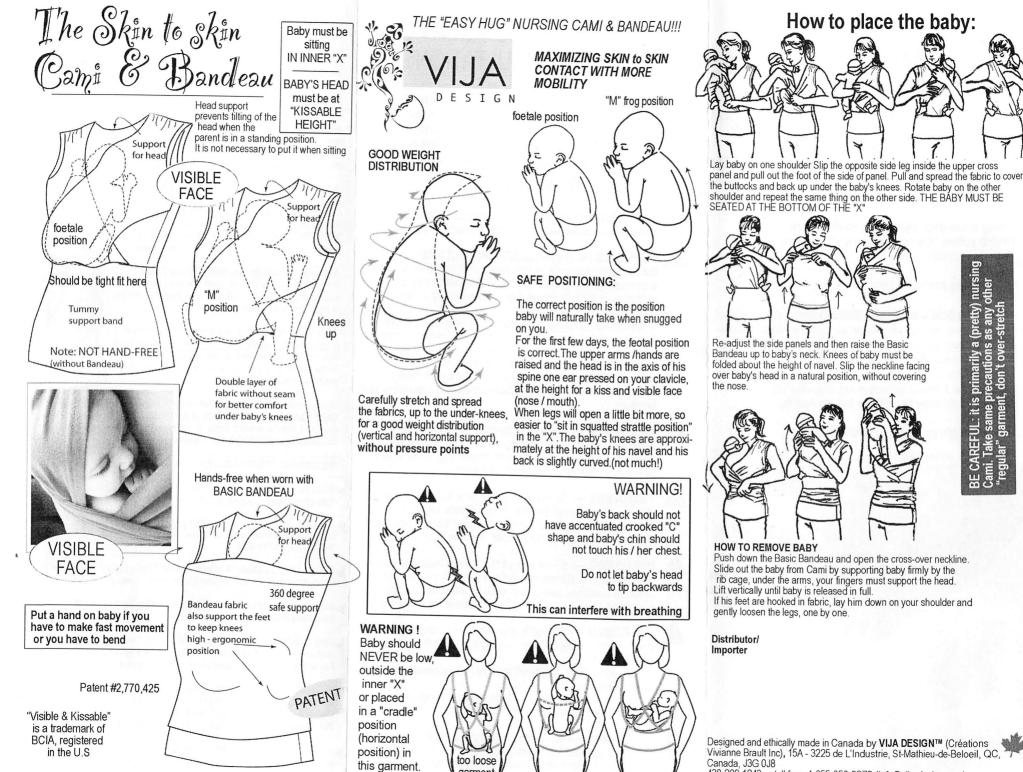

-For breastfeeding, simply pull down the bandeau and open semi-lateral opening, or simply pull-open cross over neckline. (not suitable for breasfeeding whilst baby is in the Cami). If you do, never leave baby in craddle position inside the Cami)

-To place baby inside your shirt, follow instructions (overleaf), BE CAREFUL: BABY MUST BE PLACED INSIDE THE INNER "X". A bad position could tear your Cami and / or would not offer an adequate protection to your baby Also make sure that baby's head is always supported.

RECOMMENDATIONS / ADDITIONAL WARNINGS:

- -When you position your baby into the Cami & Bandeau, make sure you are in a safe place. If baby is agited, take the time to calm down before continuing.
- -This Cami is not a baby carrier, don't put it over another garment. Baby must be without garments (skin to skin contact) - or with very light garments to avoid excessive heat.
- Make sure baby's airway is always clear and baby can breathe well, that baby's head and neck are not tilted too far back or forward/up or down.
- Baby should always be in vertical position, sitting inside inner "X". Head should be close enough to kiss
- Stay tuned to baby's needs (do not fall asleep). Use your common sense and your instincts to avoid any situation where a fall could occur. Pay attention to your new dimensions, especially door frames!
- -Be careful of your movements and baby's movements, which can change your balance. Stop babywearing when balance or mobility is impaired because of exercise, drowsiness, or medical conditions. Put a hand on baby if you have to make fast movement or you have to bend.
- -Check for ripped seams or fabric, If found, stop using the "babywearing feature" of your T-shirt and contact us: 438-289-1243 or toll free line 1-855-850-9279 info@vija-design.com.
